

Maya Final Project

Create a Presentation and Animation of your Maya work this semester.

Create the poster and animation based on the model that you textured.

Requirements:

3 Images of your object - perspective view, front view, side view

1 Orthographic view of the object in a simple line style (use the Wireframe View (press 4) in Front or Perspective)

1 Paragraph describing your work with a Title set in larger font size than the body copy.

1 List of all colors and materials used with icons for each

Format

You can create a large scale one-page 11x 17 inch poster

OR

You can create a multi-page PDF of your work

Save your file as Lastname_Maya_Final.pdf

Animation

Create a 3-5 second animated video of your object.
