Name:

Directions

Add a screenshot from a movie/cartoon in each box. Type what 'Type of Shot' it is below each image. Get a differrent type of shot for each box.

Establishing Shot - a shot from VERY far away, the character is usually very small or not visible

Wide Shot or Long Shot - a shot from far away, you can see the full body of the character and an important location

Full Shot - You can see the full body of the character and they take up the whole screen

Mid Shot or Medium Shot - a shot that shows the character from the waist up

Two Shot - a shot that shows two characters

Over The Shoulder (OTS)- a shot that shows the shoulder of a character, usually talking to another character

Close Up - a close-up shot of the face of the character

Extreme Close Up - a shot of the eyes/mouth or body part of the character
