

**DRAWING
CHERRY
BLOSSOMS**

Cherry Blossom

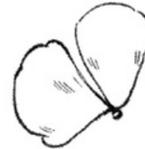

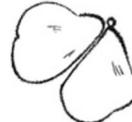

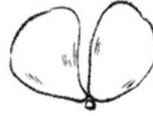

Flower Drawing Course by JeyRam.Org

To start let's practice drawing some basic flower petals.
Their shape is wider and more rounded towards the outside.
They come to a sharper point towards the center of the flower. Copy from the examples

Stylized Petals

We can also draw these stylized Cherry Blossom petals
by cutting out a triangle shape from the outer rim of the petal.
Copy from the examples!

Now we can draw 5 of these petals together to get a complete flower. To do this we will use a circular guideline and a dot in the middle to plan out our flower. To learn more about guidelines check out my Flower Course over on JeyRam.Art.

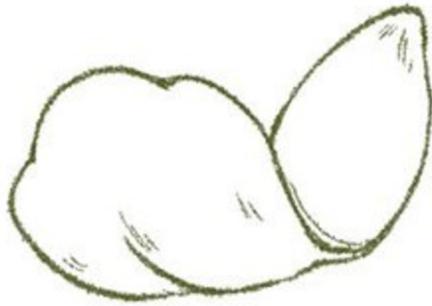

Middle - Stamen

To draw the frilly bits in the middle of the Cherry Blossom we will draw thin stems that have a small bulb at the top. Feel free to play with the density and number of frills when drawing on your own.

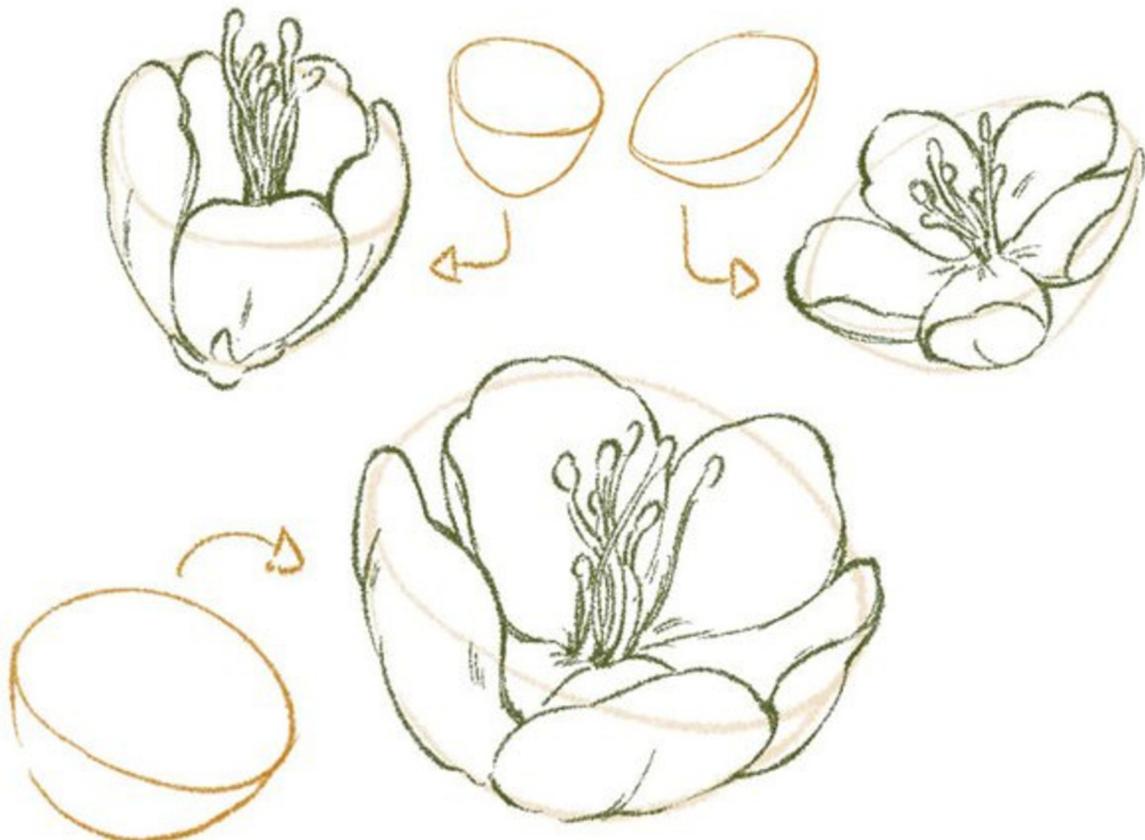

How to Draw Cherry Blossoms

By JeyRam

Apply our folded flower petals to the cherry blossom drawings to give them more dimension

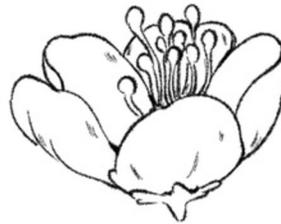

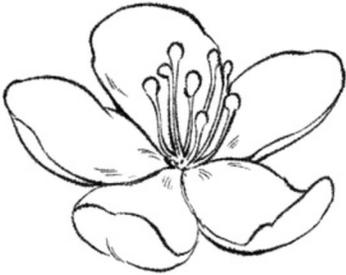

Cherry Blossom

Flower Drawing Course by JeyRam.Org

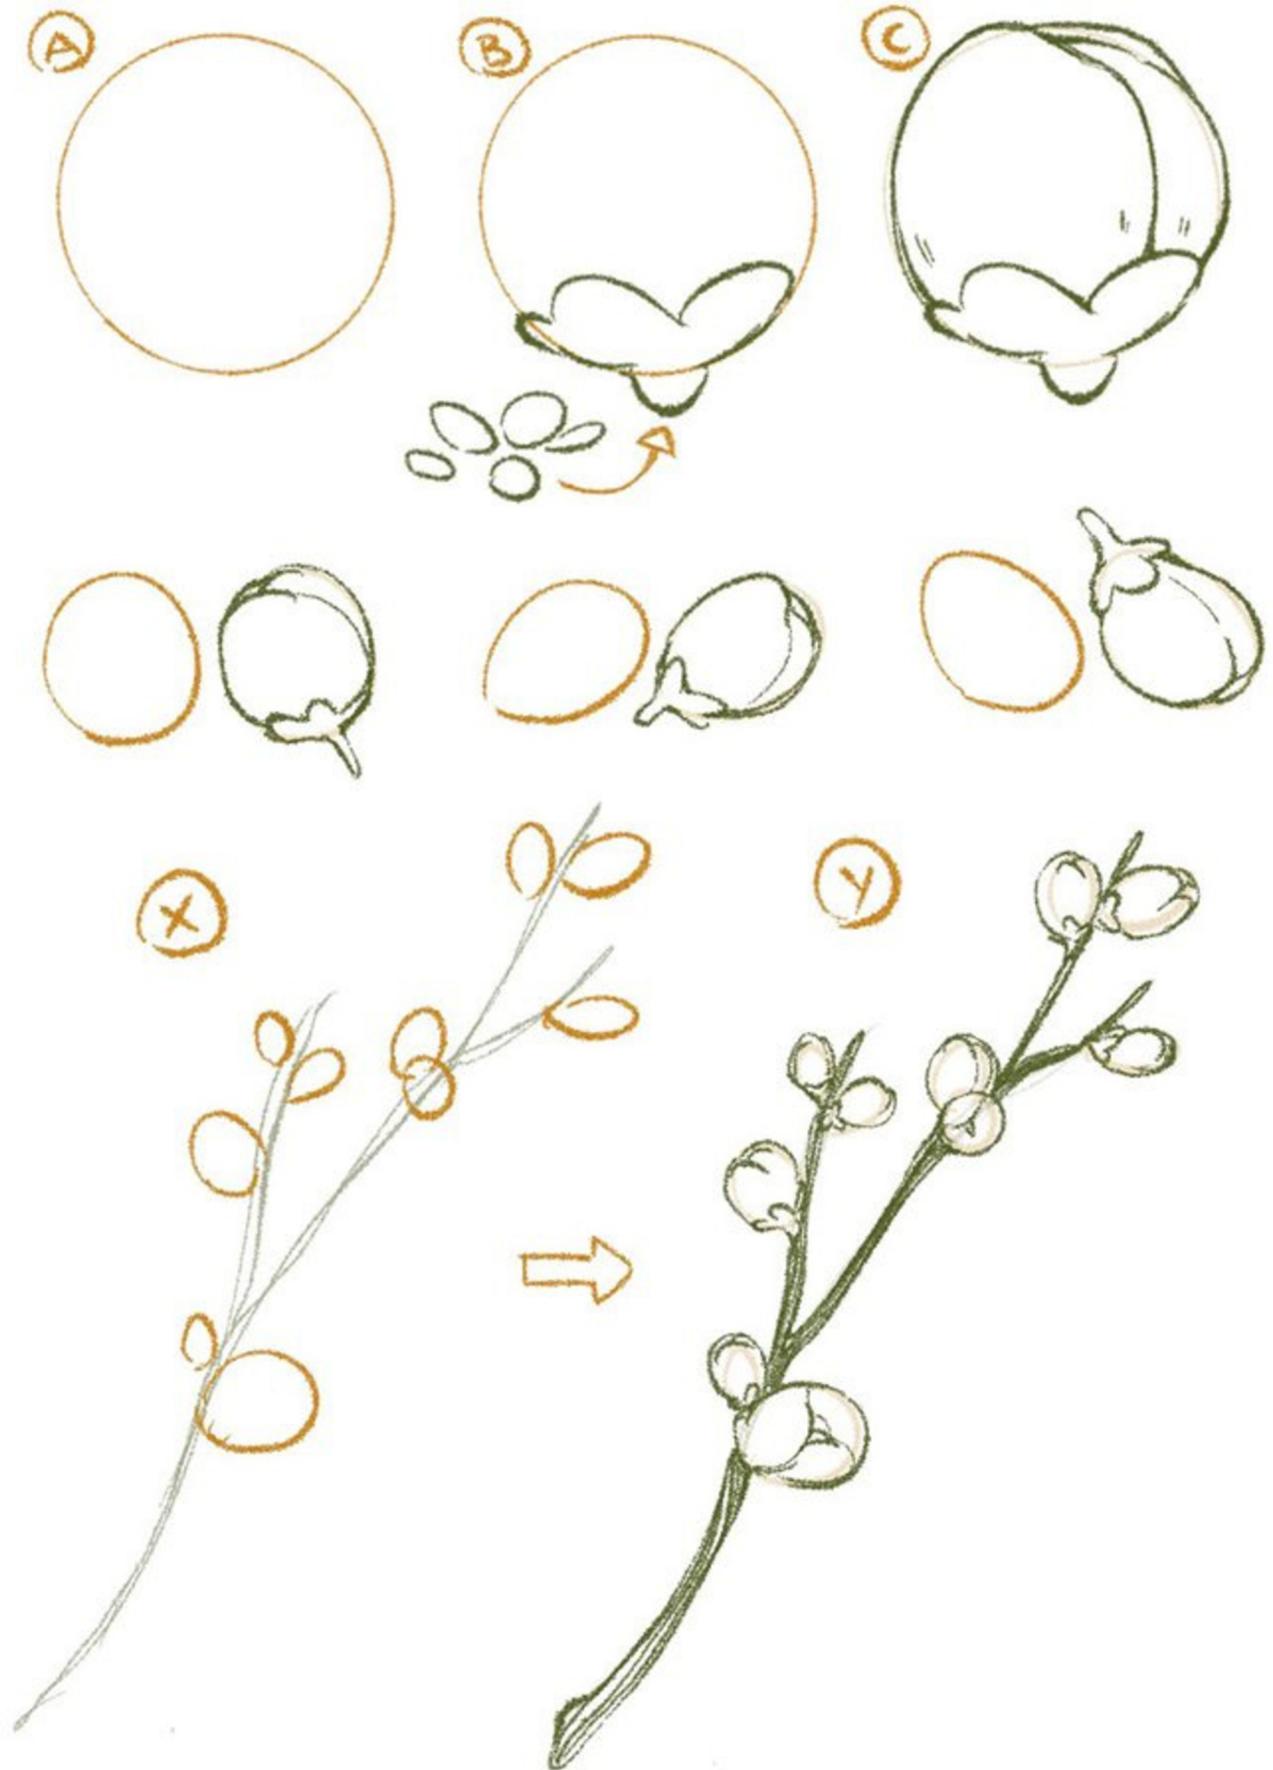

So far we have drawn flower petals that are all fully visible,
now let's draw some that overlap part of the flower.

Copy from the examples and apply what we learned in our Core Concepts section.

How to Draw Cherry Blossoms

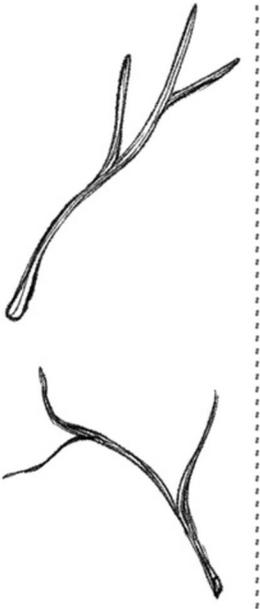

By JeyRam

Cherry Blossom

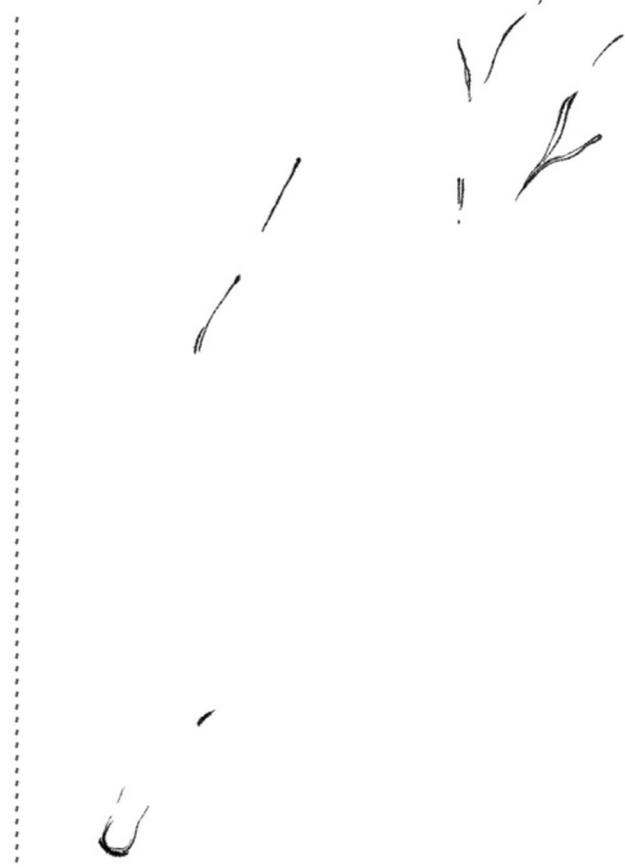

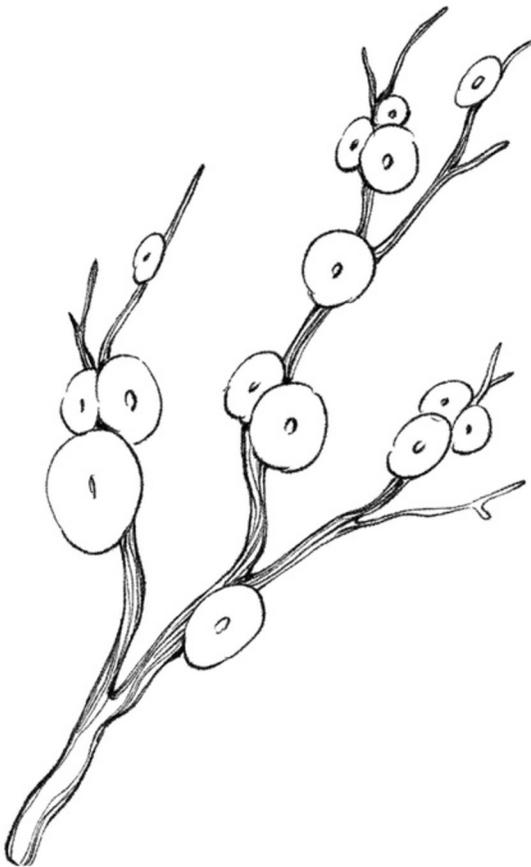

Flower Drawing Course by JeyRam.Org

Let's draw some branches for our Cherry Blossoms to sit on. Pay attention to the balance of straight and curved lines and also how the branch is thicker towards the base. Copy from the examples below

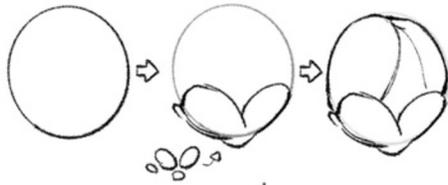

Branch + Guideline

Now combine our branch with some circular guidelines to bring us one step closer to a complete drawing!

Cherry Blossom

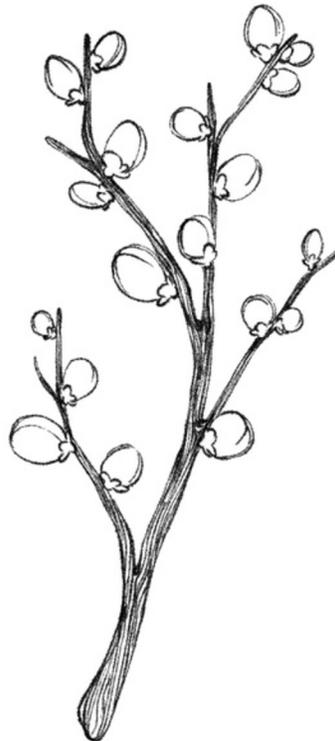

Flower Drawing Course by JeyRam.Org

To draw the bud of a Cherry blossom we use a circular guideline, then add small circular elements to the base before drawing the petals that are folded into each other.

Branches & Buds

Now let's combine everything we have learned and draw
Cherry Blossoms with buds and overlapping flowers.
Copy from the examples and don't be shy about erasing!
