

Project 3- Rendering with Styles

Create rendered versions of your interior using Sketchup Styles and Photoshop.

Steps:

- Follow the steps on the blog or watch my tutorial video to prepare the different Sketchup Styles of your interior.
- Use Photoshop to composite the images and create a finished rendering.

Requirements:

Create 3 different rendered versions of your interior using the steps above.

The 3 versions must be (at least)

8 1/2 x 11 inches, 300dpi RGB

Save them as .psd for your records

Turn them in as three high quality Jpgs.

Files named

Lastname_Firstname_Project_3_1.jpg

Lastname_Firstname_Project_3_2.jpg

Lastname_Firstname_Project_3_3.jpg

SKETCHUP CAN CRASH!!!

MAKE SURE TO BACK UP YOUR WORK!

save your backups with different names as you work.
