

Project 3 - Photoshop Keyframe Animation

Use Photoshop keyframes and smart objects to create an animation inspired by the 12 principles.

Use video timeline keyframes to animate drawings, found images, text, shapes.

Animate with Position, Opacity, Style, Text Warp, Filters.

Animate with embedded video, embedded smart objects and masks.

Possible Projects:

Bouncing Ball
Animated Text
Composite Video
or
Experiment!

Requirements

500px by 500px minimum (feel free to go bigger).

3 seconds (or more).

The animation must be inspired by the 12 principles.

Export to Lastname_Photoshop_keyframe.mov file

MAKE SURE TO SAVE AS PSD WHILE YOU WORK!

BEWARE of making GIFS if your animation is too complicated, it might freeze/crash your project.
