To draw the rose buds we draw a circular shape that is pinched at the top and that has a small base. Add lines to show the layers, they almost look like small onions.

When we draw the stem of the flower it is useful to think of them as very thin tubes.

Stem Basics

To draw rose stems we can draw thin tubes that connect to the base of the flower. You can draw multiple flowers coming out of the same stem. We can also add the thorns by adding sharp triangle shapes onto the stems.
